Dear Commissioner Andrew Giles Fay,

I paid for installation of my own solar system. No help was provided to me!

I'm a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Please deny Duke Energy's request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

Sincerely,

Robert Geisler

Dear Commissioner Andrew Giles Fay,

Wal-Mart can afford to pay for their own solar installations, so let's let them do that.

I'm a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Dear Commissioner Andrew Giles Fay,

We need to go solar with real programs that encourage and enable individuals and families to convert away from fossil powered electricity.

I'm a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Dear Commissioner Andrew Giles Fay,

I do NOT want the PSC funding corporations to pay for installing their commercial operations with solar power. Individuals have to pay for ours, why should you pay for corporations? Instead, set up a program to install solar for vulnerable and low income communities that are already struggling to pay their utility bills, not profitable businesses that can afford to include solar in their budgets.

I'm a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves.
