Dear Commissioner Art Graham,

For my 6 wonderful grest-grandchilren who will be here on this beautiful planet long after I'm gone, I beg you to start putting saving this earth ahead of profits.

I?m a Duke Energy customer and a member of the Sierra Club.

I support solar, however, I do not support it being used as a ruse to require all customers to pay big corporations, like Walmart, millions of dollars when those corporations are perfectly capable of paying for those costs themselves. Vulnerable communities already have a difficult enough time paying their current utility bills without an additional rate increase that will subsidize big corporations instead of providing all ratepayers the benefits of clean energy.

Please deny Duke Energy?s request to approve their Clean Energy Connection program. If all customers, like me, are paying for solar then we deserve to also enjoy all the cost savings of that solar, and not just big corporations.

Sincerely,

Charlotte Joynes
