Dear Utility Representatives:

Re: Review of the 2021 Ten-Year Site Plans for Florida's Electric Utilities – Staff's Data Request #2

Please respond to the following questions, which constitute Staff's Data Request #2.

Q1. Please explain how your Company's Sales to Residential, Commercial, and Industrial classes, as well as the Total Sales to Ultimate Customers, were affected by the COVID-19 Pandemic so far.

R1a. Seminole's sales to the residential class during the COVID-19 pandemic were above what were expected. Seminole's sales to the commercial/industrial class in 2020 were approximately equal to 2019 – the year before the COVID-19 pandemic. Seminole does not separately track sales to industrial consumers – its sales are combined with the sales to the commercial consumers.

R1b. Overall, Seminole's sales to Total Sales to Ultimate Customers were above budget during the COVID-19 pandemic.

Q2. Please discuss your Company's expectation of the potential impact of the COVID- 19 Pandemic and the economic recovery on your Company's Total Sales to Ultimate Customers in 2021 and 2022.

R2. Seminole expects post-pandemic recovery to be strong for a few of its Members leading to budgeted Total Sales to Ultimate Customers in 2022 to be above that in 2021.

Q3. Please discuss your Company's expectation of the potential impact of the increasing society-wide awareness of the Climate Change issue on your Company's Total Sales to Ultimate Customers in the near future.

R3. Seminole has not forecasted any such potential impact.

Q4. Please discuss your Company's expectation of the potential impact of the increased utilization of the electric vehicles in your service area on the Company's Total Sales to Ultimate Customers in the near future.

R4. Seminole has not yet forecasted the potential impact of the increased utilization of the electric vehicles. However, the forecast of such utilization is currently being planned to be included in future forecasts.
