This email shall act as our strong objection to the FPL requested rate hike. This very large increase in utility rates is a huge burden on Florida residents, particularly those residents who are retired and living on a fixed income. As a state sanctioned monopoly, FPL should not be entitled to such a high return on investment while FL residents are currently receiving less than a 1% return on their savings accounts.

It is time to place the interest of Florida citizens above the greed of FPL!
