Docket No.: 20210001-EI

Date: July 30, 2021

**GULF POWER COMPANY'S
REQUEST FOR CONFIDENTIAL CLASSIFICATION OF INFORMATION**

Gulf Power Company ("Gulf"), pursuant to Rule 25-22.006, Florida Administrative Code ("F.A.C.") and Section 366.093, Florida Statutes ("F.S."), hereby requests confidential classification of certain information on Florida Public Service Commission ("Commission") Form Nos. 423-2, 423-2(a), and 423-2(b) for the second quarter of 2021 (the "423 Forms"). In support of this Request, Gulf states as follows:

1. On July 30, 2021 Gulf will file with the Commission and serve on all parties of record the 423 Forms. This request is being filed in order to request confidential classification of certain information contained in those documents, consistent with Rule 25-22.006, F.A.C.
2. The following exhibits are attached to and made a part of this Request:
 - a. Exhibit "A" consists of the 423 Forms and all the information that Gulf asserts is entitled to confidential treatment has been highlighted.
 - b. Exhibit "B" is an edited version of Exhibit "A" on which the specific information Gulf asserts is confidential has been blocked out.
 - c. Exhibit "C" is a line-by-line justification table in support of Gulf's Request for Confidential Classification in which Gulf demonstrates that the information Gulf asserts is confidential qualifies as one of the statutory examples listed in section 364.183(3), 366.093(3), or 367.156(3), F.S.
3. Gulf submits that a portion of the information contained in the 423 Forms is proprietary confidential business information regarding contractual matters which would cause

irreparable harm to Gulf, the entities with whom it has entered into contracts and most importantly to Gulf's customers, if such information was disclosed to the general public. The 423 Forms contain pricing information for capacity purchases between Gulf and various counterparties. The pricing information is regarded by both Gulf and the counterparties as confidential. The pricing, which resulted from negotiations between Gulf and the counterparties, is specific to the individual contracts and is not publicly known. Disclosure of this information would negatively impact Gulf's ability to negotiate pricing favorable to its customers in future capacity contracts. In addition, potential counterparties may refuse to enter into contracts with Gulf, or may charge higher prices, if the price terms are made public. The information has not been publicly disclosed and is entitled to confidential classification pursuant to sections 366.093(3)(d) and (e), F.S.

4. Upon a finding by the Commission that the confidential information contained in the 423 Forms is proprietary and confidential business information, the information should not be declassified for at least an eighteenth (18) month period and should be returned to Gulf as soon as it is no longer necessary for the Commission to conduct its business. *See* Section 366.093(4), F.S.

WHEREFORE, for the above and foregoing reasons, as more fully set forth in the supporting materials, Gulf Power Company respectfully requests that the Commission grant Gulf's Request for Confidential Classification and enter an order protecting the information highlighted on Exhibit "A" to this Request from public disclosure.

Respectfully submitted this 30th day of July 2021.

Form 423-2

Plant Names	Columns	Justification
Plant Daniel, lines 1 Plant Scherer, lines 1-5	(g)	The Effective Purchase Price represents the contract coal commodity price net of Quality Adjustments found in column (k) on form 423-2(a). This information is considered confidential and competitively sensitive by Gulf Power’s coal suppliers. Additionally, disclosure of this information, in conjunction with the information disclosed under other columns in this filing, would enable coal suppliers to determine the prices being charged by their competitors. This, in turn, could lead to less competitive pricing and impact Gulf’s ability to bargain for price concessions with its coal suppliers. This information is confidential pursuant to section 366.093(3)(d)-(e), Florida Statutes.
Plant Daniel, lines 1 Plant Scherer, lines 1-5	(h)	The Effective Transport Charges represent per ton transport charges incurred by Gulf to transport coal to its plants. This information is considered confidential and competitively sensitive by Gulf’s transportation providers. Additionally, disclosure of Gulf’s Effective Transport Charges in conjunction with the Total FOB Plant Price in column (i) would enable disclosure of the Effective Purchase Price in column (g) by subtracting the Effective Transport Charges in column (h) from the Total FOB Plant Price in column (i). This information is confidential pursuant to section 366.093(3)(d)-(e), Florida Statutes.

Form 423-2(a)

Plant Names	Columns	Justification
Plant Daniel, lines 1 Plant Scherer, lines 1-5	(f)	The FOB Mine Price is the current contract price of coal purchased by Gulf from each supplier. Disclosure of this information would enable suppliers to compare prices with their competitors which could lead to less competitive coal pricing in future bidding. Disclosure could also result in reduced ability for Gulf Power to bargain for price concessions from individual suppliers. This information is confidential pursuant to section 366.093(3)(d)-(e), Florida Statutes.
Plant Daniel, lines 1 Plant Scherer, lines 1-5	(h)	The Original Invoice Price is the same as the FOB Price in column (f) except in cases when the supplier discloses its short haul and loading costs (column (g)), if any, included in the contract price of coal. Disclosure of this information would therefore be detrimental for the same reasons as are articulated above in connection with the FOB Mine Price.
Plant Daniel, lines 1 Plant Scherer, lines 1-5	(j)	The Base Price is the same as the Original Invoice Price in column (h), since retroactive pricing adjustments (column (i)) are normally received, if at all, after the reporting month and are included on Form 423-C, if necessary. Disclosure of this information would therefore be detrimental for the same reasons as are articulated above in connection with the FOB Mine Price.
Plant Daniel, lines 1 Plant Scherer, lines 1-5	(l)	The Effective Purchase Price represents the Base Price in column (j) adjusted by the Quality Adjustments in column (k). Disclosure of this information would therefore be detrimental for the same reasons as are articulated above in connection with FOB Mine Price.

Form 423-2(b)

Plant Names	Columns	Justification
Plant Daniel, lines 1 Plant Scherer, lines 1-5	(g)	The Effective Purchase Price, as described above, is contract coal commodity price net of Quality Adjustments found in column (k) on form 423-2(a) and is confidential for the reasons previously stated.
Plant Daniel, lines 1 Plant Scherer, lines 1-5	(i)	The Rail Rate is the current rate that Gulf Power pays to transport coal to its plants via rail. This information is considered confidential by Gulf's rail transportation providers. Additionally, disclosure of this information would enable rail transport providers to compare rates with their competitors which, in turn, could lead to less competitive rail rates in future negotiations. Disclosure would also result in reduced ability for Gulf Power to bargain for price concessions from individual providers. This information is confidential pursuant to section 366.093(3)(d), Florida Statutes.
Plant Daniel, lines 1 Plant Scherer, lines 1-5	(p)	The Total Transportation Charges represent the total cost reported as transportation charges. Disclosure of this information in conjunction with information disclosed in other columns of Form 423-2(b) could enable third parties to determine individual components of the Total Transportation Charge, such as Rail or River Barge Rates which are confidential for the reasons stated above.
