

July 18, 2021

Dear PSC Commissioner:

SUBJECT: Public Comment on Docket # 20240015-E1

As a Florida resident, I urge you to decline FPL's rate increase petition. This increase would create an unnecessary and excessive burden on utility customers at a time when many Floridians can least afford to pay more for their unavoidable daily living expenses.

FPL is trying to charge customers for a range of projects unwanted and unneeded. They don't need to spend billions of consumer dollars to build redundant fossil fuel units, rebuild a sufficient transmission systems, and give shareholders a raise.

Please don't put FPL's desire to maximize profits over Floridian's needs to power their homes affordably.

Respectfully,
Cynthia McKinney
