QUESTION:

Please indicate the trim cycle for FPL's Transmission Vegetation Management program.

RESPONSE:

Under FPL's Commission-approved Storm Protection Plan (SPP), FPL plans to inspect and maintain its entire transmission system, which on average is approximately 7,000 miles annually. A detailed description of FPL's Vegetation Management – Transmission Program that complies with the North American Electric Reliability Corporation's (NERC) vegetation management requirements is provided in Section IV(H) of FPL's 2020-2029 SPP approved in Docket No. 20200071.
