**Re: Florida Power & Light Company – Docket No. 20210000-OT
Notice of Subsequent License Renewal Application for St. Lucie Nuclear
Generating Units 1 and 2, Pursuant to Rule 25-6.04365(6), F.A.C.**

Dear Mr. Teitzman:

Rule 25-6.04365(6), F.A.C., directs a utility to provide the Florida Public Service Commission (“Commission”) Clerk with a written summary of communications concerning major milestones between the Nuclear Regulatory Commission (“NRC”) and the utility concerning license renewal within 21 days of receipt or mailing by the utility.

On April 7, 2021, Florida Power & Light Company (“FPL”) provided the Commission with notice that, on March 17, 2021, FPL submitted to the NRC a Notice of Intent to Submit a Subsequent License Renewal Application (“SLRA”) for the Operating Licenses for St. Lucie Nuclear Generating (“St. Lucie”) Units 1 and 2 in the third quarter of 2021.

FPL hereby notifies the Commission that, on August 3, 2021, FPL submitted to the NRC an SLRA for the Operating Licenses for St. Lucie Units 1 and 2. By its SLRA, FPL seeks to extend the term of each operating license by 20 years beyond its current expiration date. The current renewed Facility Operating License for St. Lucie Unit 1 expires on March 1, 2036, and the current renewed Facility Operating License for St. Lucie Unit 2 expires on April 6, 2043.

Please contact me at (561) 691-7108 if you or your Staff has any questions regarding this notice.

Sincerely,

/s/ Jason A. Higginbotham

Jason A. Higginbotham
