Good Morning, D. Rader.

We will be placing your comments below in consumer correspondence in Docket No. 20210015, and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you!

Toni Hover

Subject: Public Comment on Docket #20210015-EI

Dear Public Service Commission,

FPL is asking for extra money to build new fossil fuel infrastructure, describing them as "clean energy centers." Natural gas (extracted mainly by out-of-state fracking) is not "clean energy."

Instead of giving themselves a raise, FPL should focus on decreasing bills for the millions of Floridians struggling to get back on their feet in the wake of the COVID-19 crisis.

FPL is trying to charge customers like us for a range of projects we do not want or need. FPL does not need to spend billions of our dollars to build redundant fossil fuel units, rebuild an already-sufficient transmission system, and give their shareholders a raise.

Please do not put FPL's desire to maximize profits over our need to power our homes affordably.

Thank you!

Sincerely,
D. Rader
