Dear Commissioner

FPL manages very well with the amount of income received from all its residents, on a monthly! Raising the rates could put a financial hardship on many Florida residents who are just getting by from month to month as it is

! Many seniors are included in this category! With Social Security raises amounting to ZERO each year, it is not fair to put an extra financial burden onto those who are currently finding difficult to make ends meet! Fairness should prevail, not give multi-billion corporations additional income!

Thank you,

Gerald Sykoff
