Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

In reviewing the details of the proposed settlement with FPL, I question why FPL should be allowed a 10.6% Return on Equity when the national average is 9.5%. Other companies have lower 2021 ROEs -- Duke Energy at 9.85% and TECO at 9.95%.

I did not see any acceptable explanation for this largesse.

And, frankly, all of us seniors who count on Social Security for part of our income are not seeing increases sufficient to cover the rate increases that ROE will entail.

Thank you,

Sharon O'Day
