Re: Energy Conservation Cost Recovery Clause
FPSC Docket No. 20210002-EG

Dear Mr. Teitzman:

Attached for filing in the above docket on behalf of Tampa Electric Company (“the company”) is the supplement to the Energy Conservation Cost Recovery Petition, originally filed on August 6, 2021.

In the August 6, 2021 Petition, the company indicated that, at that time, the company had not completed the analysis to determine all of the other clause factors that are utilized to calculate and establish Tampa Electric’s Price Responsive Load Management program (“RSVP-1”) rates for the January through December 2022 period. The company indicated in its original Petition that it would file the proposed RSVP-1 rates based upon the company’s 2022 projected clause amounts for the ECCR, Fuel and Purchase Power Cost Recovery, Capacity Cost Recovery and Environmental Cost Recovery clauses after those factors were calculated. The company has now completed all the other clause factors that are utilized to calculate and establish the RSVP-1 rates for the January through December 2022 period and is including the proposed RSVP-1 rates in this supplement to its Petition. In addition, Tampa Electric has certain proposals pending in Docket No. 20210034-EI that may affect the proposed 2022 RSVP-1 rates. Once the outcome of this proceeding is known, the company shall submit revised 2022 RSVP-1 rates for review and approval.

Thank you for your assistance in connection with this matter.

Sincerely,

Malcolm N. Means
