Dear Commissioner

Climate change is making it harder to cool your home. I put my thermostat on the highest temperature (76°) to conserve energy without feeling the heat during these hot months. I have to use portable fans to stay cool. I live on a fixed income and this settlement is a win-win for FPL, not the consumers. A more fair settlement for consumers over investors would be nice. FPL has monopolized the energy in Florida for decades and has made more than enough money for their investors while many customers who don't qualify for any assistance continue to pay higher and higher bills. PSC suppose to mean PUBLIC Service Commission but it really seems to be Pleasing Service Companies.

Thank you,

SHERYL WALDON
