**Subject:** Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

After working for the company that clears the power lines for FPL for 49 years here in Palm Beach Co. I can see some increase is necessary, but there is a lot of waste, especially during a storm situation. Tons of wasted time & money spent over planning for crews, extreme waste on food, drinks & other items for office personal year round. And to see tons of ice dumped on the ground out of the refrigerated trailers after a storm not allowing anyone to use it. FPL pisses away so much money on really stupid things every year, like studies on how to better trim a tree away from lines, paying contractors to go check on the other contractors they hired to clear the lines. Like I said before, I worked on FPL property for 49 years with Asplundh. I have seen so much waste and even questioned some of the actions and waste, but was usually told don't worry about it, it's not your money. The funny thing is that it was my money since I'm also an FPL customer.

Thank you,

Curtis Suthard
