Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

As a senior on on a fixed income (SS and VA disability) my average FPL bill has risen from \$47.00/month in 2019 to over \$62.00/month in 2021

The idea of my FPL bill increasing another 25% over the next 3 years while my income increase about 4.5% frightens me. Currently the CPI for 2021 is expected to exceed 6% due to Covid 19 add to that a additional 2% increase in electric cost and you can understand why seniors in Florida are worried and against the outrageous actions of FPL

With everyone demanding transparency in business and government, we wonder why FPL is not held accountable for their lack of transparency.

FPL advertising on TV claims tat their rates tare among the lowest in the nation but in reality they are not.

What else can seniors do but demand that the Commission hold FPL accountable

Thank you,

John Dougher
