Dear Commissioner

I am a retiree with medical costs going sky high even with MEDICARE supplemental insurance that costs over \$1000 a month. Groceries have increased at least by 1/3 since the Democrats took office and the pandemic has everyone with their hand out. I never thought I would have to be concerned about basic costs like medicine, food and utilities but let me tell all working people you better start saving more now. My Florida county wants to raise taxes by 13%. I can appreciate that FPL wants more money like everyone else with their hands out to be paid for something but I am objecting to every increase that I can because I don't want to outlive my savings or just die early because I can't pay for all these increases.

Thank you,

Laurence Morgan
