Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

I am a organ transplant recipient and a Registered Nurse, I had to step away from my career due to COVID and my immunocompromised status. In doing so I lost more than half of my income. I have done cuts in my expenses everywhere I could but if the electricity bill continues to increase I will have no choice but to lose the house because my medications are extremely costly and I have to literally take them to stay alive. Please, do not raise the electricity bill because in my case is already between \$150-\$190 a month due to the hot weather.

Thank you.

Thank you,

Juan Rosario
