Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

As a retired person income is limited... housing, food, medications and utilities takes up a considerable amount of my available limited funds. FLP needs to explain to us exactly why they need this huge increase.

FPL has no competition in Florida. They should be helping to lower our electric bills, find cheaper energy and offer a viable choice for solar in communities. Have they done anything in this regard?

Please help us limit or reduce these large (probably unnecessary) utility increases, and get an honest explanation as to why these increases are necessary. Because there is no competition for energy, FLP needs to stay at least competitive with other states on electricity rates...or we need more energy providers in the state of Florida that will offer competitive rates to help our citizens.

I don't feel FLP's proposed settlement is offering us utility users a fair shake, please help us to stand up to FLP.

Thank you,

Judi Rojas
