Good Afternoon, Robert DiCaprio,

We will be placing your comments below in consumer correspondence in Docket 20210000, and the Office of Consumer Assistance and Outreach will be notified.

Sincerely,

Hong Wang

Office of Commission Clerk
Florida Public Service Commission

Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

In these difficult pandemic times for so many families in Florida, it is inappropriate to grant FPL a Return on Equity that exceeds the national average and what other providers have been given. I am not really sure why consumers need to pay \$20 million in association dues. As a business owner for 42 years, association dues is part of normal business expense, not a separately charged item. I do not question the need for an increase, however not having carbon emission reduction plans in place is a major oversight in this proposal. Florida is already experiencing the effects of climate change with storms and hurricanes getting worse and more frequent each year. Take the time to step back and revisit this proposal to make it fair to both FPL and Florida consumers.

Thank you,

Robert DiCaprio
