Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

The proposed settlement allows a too generous 10.6% Return on Equity instead of 11.5% (in 2021 Duke settled for 9.85% and TECO for 9.95%) ... still well above the national average of 9.5%. Why?

While Florida's per kwh rate may be competitive, it has among the highest average residential electric bills. Florida also saw among the largest increases in bills (20%). Why? You are supposed to be working for the citizens of Florida not FP&L!

Thank you,

DONALD SILLIMAN
