Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

Electricity costs have been rising relentlessly despite no corresponding rise in fixed incomes. This has placed an unacceptable strain on older people in particular and impacts every resident of the state of Florida. At the same time the electric power industry has been resisting incorporating renewable energy resources into the power grid. This must not be permitted. It is time the FPSC stood up for the rights of the consumers !!!

Thank you,

Michael Daniec
