Good Afternoon, Michael Thornton,

We will be placing your comments below in consumer correspondence in Docket 20210000, and the Office of Consumer Assistance and Outreach will be notified.

Sincerely,

*Hong Wang*

Office of Commission Clerk  
Florida Public Service Commission  
2540 Shumard Oak Blvd.  
Tallahassee, FL 32399-0850  
850-413-6770

*PLEASE NOTE: Florida has a very broad public records law. Most written communications to or from state officials regarding state business are considered to be public records and will be made available to the public and the media upon request. Therefore, your email message may be subject to public disclosure.*

Dear Commissioner

I believe FPL should not be given such high increases when other utilities are able to do with less.

FPL continues to be the only major utility with no absolute carbon emissions reduction goals, With the increases FPL demands, why doesn't FPL work to reduce carbon footprint, especially sine the state is a prime target for climate change hurricanes which pack a bigger punch each year.

Includes nearly \$20 million in industry association dues paid by customers with no requirement for FPL to prove how the dues are used to benefit customers. Why are consumers paying for association dues? That is a theft of consumer's payments. Can I bill FPL for my association dues? Can I bill you for association dues? Stop this needless, grotesque giveaway.

Please consider that in a time of climate change, FPL must commit to a more carbon neutral position. They should not have plans to make climate change and the associated damage worse. They need to be more responsible.

Thank you,

Michael Thornton  
13360 Golf Pointe Dr  
Port Charlotte FL 33953

Thank you,

Michael Thornton
