Subject: RE: Tell the PSC Why They Need to Keep Your Power Bill Low

Good Afternoon, Howard Stirling,

We will be placing your comments below in consumer correspondence in Docket 20210000, and the Office of Consumer Assistance and Outreach will be notified.

Sincerely,

Hong Wang

Office of Commission Clerk
Florida Public Service Commission

Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

Sidestepping accountability is always the FPL way of doing business. The fact that the ROE is higher than Duke Energy and other big grid operators is always the case with FPL.

The accelerating climate catastrophe is the biggest part of this fiasco that will bankrupt FPL when Turkey Point nuclear reactor radiation kills people and destroys the ecosystem after the foreseeable Category 5 Hurricane strikes. FPL must be ordered to decommission Turkey Point now.

Also the PSC needs to order FPL to place all power lines underground and change the grid to shielded Direct Current power lines and place all vulnerable components shielded above ground.

The overriding issue is that climate catastrophe will wipe out large sections of the major population centers. The FPL President in an end of year press briefing admitted that 3 months after Hurricane Dorian if landfall would have struck West Palm Beach only 20% of power would be restored.

The PSC needs to wake up and recognize reality. PSC members who do not will be removed for dereliction of duty.

Thank you,

Howard Stirling
