Dear Commissioner

Costs for energy in Florida (Naples) are already too high and higher than the national average. A 10.6% guaranteed return is ridiculous. Wouldn't it be nice if we could all get a return like that on our investments.

There's no guarantee that FPL will turn the corner on fossil fuels that harm our planet and contribute to the global warming that will eventually threaten the destruction of of coastlines.

Thank you,

Gerry Steltenpohl
