Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

The people of Florida have been hard hit the past 19 months by firings and layoffs due to Covid 19. As a direct result MORE people were at home using more electricity for their A/C's while their companies still had to use A/C to keep computers and merchandise safe from the heat and humidity. This led to a direct increase in profit for FPL and its shareholders while the employees and their families are still reeling from the economic havoc this wreaked on them. Please consider keeping the increase lower than requested for the next 2 years while we sort out the massive credit card debt we all acquired attempting to buy groceries and keep

utilities paid all those months.

Thank you,

Jeanne Gelbert
