Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

Please do not allow FPL to raise rates. While I understand the kWhr rate is low, the volume used is high enough we should get even a lower price than now. The more you buy the lower

the price like Sam's and Costco. If they have a rate hike approved especially with so many struggling then I as well a millions of others would demand competition like in other states. A monopoly that raises prices while still operating at a very nice profit is poised to challenged with a demand for the end of the electric monopoly and allowing g competution in. If it worked for Texas it will for Florida, we arent California after all.

Thank you,

kevin keough
