Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

While Florida's per kwh rate may be competitive, it has among the highest average residential electric bills. Florida also saw among the largest increases in bills (20%) according to a report issued July 2021.

Consumer groups believe rates can and should be lowered, not increased.

Read FPL's press release detailing the settlement agreement.

FPL continues to be the only major utility with no absolute carbon emissions reduction goals, instead committing only to a reduction of carbon "intensity." Ironically, NextEra (FPL's parent) invests in clean energy projects around the country.

If the PSC agrees with the settlement, it will allow FPL to avoid going on the record with answers to questions about its clean energy goals and its commitment to keeping its rates affordable.

Thank you,

Tyrone Garrett
