Truth be told, few of us can analyze reports that only refer to one year because your reports tell us only what you want us to know. There is nothing to compare your balance sheet to. Not to mention, finding the info. Required to do a true analysis is so time consuming for we customers. Your verbology used in sorting info. is nondescript and not comparable to subject at hand. Lots of useless words Transcribe nonsense hiding what we need to understand. Your contracts protect your company, not your customers. Inflation is rampant while you raise your prices.

Dear Commissioner

The acceptance of price increases isn't acceptable to the citizens of Florida. First of all, we have not been privy to where this money goes, nor do we know why and how to compare the last five years of "progress" the FPL touts! I think it should be looked into with more due diligence.

Thank you,
