Subject: Tell the PSC Why They Need to Keep Your Power Bill Low

Dear Commissioner

Dear Sir/Madame

I'm writing this letter because I believe FPL should lower the Electric Cost due to the cost of living.

It's so unfair that the poor man continues to support the riches. I'm aware that there is a cost for

service and nothing come without a cost. However, the cost is hurting the people that support your company and keep it afloat. We need each other you need us to keep using the power and

we need you to provide the power. Every summer without hesitation, I pay a light bill that's over

300.00, although there is only two of us that resides here. My husband is gone most of the day and I enjoy the quiet time. No lights are burning, no television most of the time and maybe the internet from time to time. Yet the electric bill still goes up to over 300.00 every

June to September. I find this totally unfair, don't you? Please do something to help those that are struggling to pay their power bills, I know as for me and my spouse we are on a fixed income and is barely scraping by.

Thank you for your consideration
Mrs. Sybil A. Ferguson-Perry

Thank you,

Sybil Ferguson Perry
