Subject: Oppose theSettlement with FPL! Please Keep My Power Bill Low

Dear Commissioner

If the PSC agrees with the settlement, it will allow FPL to avoid going on the record with answers to questions about its clean energy goals and its commitment to keeping its rates affordable. Florida's per kwh rate has highest state average residential electric bills. Florida

also saw among the largest increases in bills (20%) according to a report issued July 2021. Please follow the consumer groups whose studies show rates can and should be lowered, not increased.

FPL continues to be the only major utility with no absolute carbon emissions reduction goals, instead committing only to a reduction of carbon “intensity.” Ironically, NextEra (FPL’s parent) invests in clean energy projects around the country.

Your responsibility is to protect the public, including consumers and the environment. The proposed settlement is not in our interest.

Thank you,

Janet Rosen
