Subject: Docket No 20200226-SU

As homeowners of 46 Tarpon Way since 2008 , we vehemently oppose the wastewater service being proposed! Please deny EU application for wastewater service as we and many other homeowners did not request this service on the island!There is a tremendous lack of Information regarding the finances of this project as well as technical expertise . In addition ,the rates and charges associated with it are outrageous and would put many current homeowners on the island in dire situations .Power outages would not allow the system to function at all , forcing every homeowner to obtain a generator or alternate power source. Please deny the EU the application for wastewater service as this is a poorly conceived idea and doesn't recognize the island lifestyle that so many of us full time residents desire ! Thank you for your responsible decision making for Palm Island residents . Sincerely Andrea and Gerry Illiano 46 Tarpon Way, Placida Fl 33946 Email Artabc58@gmail.com Sent from my iPhone
