**Subject:** Docket #20200226-SU

Gentlemen:

I, Paul Holmes, have been a full time resident of Little Gasparilla Island for the past twenty seven years. My property is located at 9496 Alborado. I formally object to the certification for this proposed sewer. I request that the PSC deny EU's application for waste water treatment on LGI. Jack Boyer has never installed a sewer system and should not start with one as complicated as a bridgeless barrier island. The lack of rightaways, regular power outages, no roads to follow, hurricanes, etc. would present challenges to an experienced sewer operator and should not be attempted by a neophyte. If Charlotte County wants a sewer system out here, they should take responsibility for it as they have in most of the rest of the County. I would strongly urge y'all to visit our little section of "old Florida" and see what I mean. Thank you for your time.

Sincerely, Paul Holmes
