Subject: Objection to EU proposal for sewers - Palm Island

I would like to formally record my OBJECTION to the EU proposal for Palm Island sewers.

Please DENY the Application for Original Certificate of Authorization for this proposed central sewer system on Palm Island.

A sewer system should be publicly administered - not contracted to a private entity with no practical technical experience in that field.

I am also concerned about the financial stability and historical business track record of the principals who are requesting the application.

Abdicating to a private entity makes it far less likely that fair and equitable rates/charges would be guaranteed for the residents of Palm Island. We already have too many unchecked monopolies.

Thank you for your time.

Jean Schultz
80 Palm Dr
Placida, FL 33946
