To whom it may concern,

In follow up to my previous email below:

The lack of information regarding the finances of this project and mercurial nature of the rates and charges greatly concerns me.

My water service is less than stellar with incredibly high rates. I can't imagine how much worse the sewer service would be especially in light of the lack of technical expertise of EU.

Finally, my greatest personal issue is that I spent over \$15k to replace my septic tank and drainfield in 2019. At the time that work was performed, my landscaper (Ashton Boyer, son of Jack Boyer) told me that I would be credited on that work should his father's sewer service go through. Will I receive credit for that work should mandatory connection to the sewer service be approved?

Thanks,

Subject: OBJECTION - Docket NO. 20200226-SU

To whom it may concern,

**I would like to file an objection to the Electrical Utilities Inc. application for temporary rule waiver.** The administration costs & tariffs are crucial to the application and should be included with the filing.

Please list me as an interested person for the subject docket (contact information below).
