Subject: Docket #20200226-SU

Dear Clerk of the PSC,

I am a property tax payor for 31 years on Don Pedro Island. My name is Sarah Turner and my husband and I purchased our place in January of 1991. I am objecting to the granting of an application for a wastewater license to Environmental Utilities LLC.

This application is on the docket for February 8, 2022- #20200226-SU

I am not objecting to the sewer per se. If it is needed and is proved by taking water

samples around the island, I am ok with a sewer being necessary. The problem that I have is that the LLC that is applying for a license to build and operate this utility. EU LLC has no experience in this area and I am worried about the financial and technical wherewithal. What if the project hits a few snags? This is highly likely. Shouldn't this be contracted or bid situation? The person who applies first gets it? Doesn't the county and the PSC have a lot of responsibility here?

Please vote down this request.

Thank you,

Sarah Turner
