Dear Korrie Stevenson:

Thank you for your email, dated February 28, 2022, which Commissioner Passidomo has received and read. The Commission Clerk has placed a copy of your email in Docket No. 20200226-SU, Application for certificate to provide wastewater service in Charlotte County, by Environmental Utilities, LLC. We appreciate you providing the Commission with your comments.

Sincerely,

Angelena McCoy

Good Morning,

I am submitting an enlightening response I received from Jack Boyer's daughter, Karress Boyer on social media. I do not know her.

Ms. Boyer finds it comical to laugh about her family company neglecting to provide residents information about the commission meeting.

Please continue to keep these types of behaviors at the forefront of your decision-making. Our island owners are essentially under a monopoly with the Boyer family.

We are pleading with you to stop their control over our island by rejecting their plans which serve only their family and their friends, monetarily.

So! This is a total inept system that does not even carry the product (solids) off of the island , It is not a waste water system it still has to be pumped so essentially only gray water is being removed?at a proposed Exorbitant cost

How will salt air affect the pumps and the control panels?

Interestingly I got mail from them today about the Feb 8/9 meeting and to be able to write to the commissioners. Nice ethical way to tell people wayyy after the fact.

Good Morning,

Yesterday we received this extremely outdated letter from Environmental Utilities, LLC regarding submitting our comments and the now previous meetings on February 8/9.

This is outrageous that they did not send this out until now. How many of our neighbors never received this either? Please continue to keep things like this at the forefront of your minds.

Thank you,
