Good Morning, Nina Stokes,

We will be placing your comments below in consumer correspondence in Docket 20200226-SU and forwarding them to the Office of Consumer Assistance and Outreach.

Thank you.

Lisa Smith

Commission Deputy Clerk I
Office of the Commission Clerk
Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, FL 32399-0850
850-413-6770

PLEASE NOTE: Florida has a very broad public records law. Most written communications to or from state officials regarding state business are considered to be public records and will be made available to the public and the media upon request. Therefore, your email message may be subject to public disclosure.

As owners of 8892 Gulf Street on Little Gasparilla Island, we are asking that you deny Environmental Utilities application for a wastewater certificate. The financial ability of EU has been shown to be inadequate to pay the debt on this massive construction project. This is a start up company who has never attempted or completed a project of this magnitude. Contrary to Mr. Boyer's claims, there is no verified need for service. The outrageous rates he is proposing are debunked by many parties including the Office of Public Council. Rates of \$256 / month for sewer are ridiculous! The need for homeowners to replace equipment probably within 5 years at their own expense, the need for generators to stem sewer back ups and just handing over easements with no reimbursement by Mr. Boyer is unconscionable. Finally there is no contract and no single point of general oversight. But most importantly no performance bond. Homeowners could be

left with overwhelming obligations. Please deny this start up company, the wastewater certificate for these reasons and more.

Thank you for taking the hundreds of homeowner's' pleas into consideration. Thank you very much.

Sincerely, Nina Stokes.
