Dear Commissioners,

First let me thank you for the work you are doing. I know this can be quite a wearisome job. But, as you know, you hold the power to change the lives of many citizens. A great responsibility, indeed.

I am a full-time resident of Don Pedro Island and was one of the many people who took both the opportunity to write to you and to speak on this matter.

Having just had my routine septic pump out last month, I am still convinced that the proposal by EU is not the correct path forward for many reasons, all of which you have already heard.

I am asking that you follow the staff recommendation and **deny the application made by EU.**

Thank You,

David Cohen
