Dear Mr. Bourke:

Thank you for your email, dated June 3, 2022, which Commissioner Passidomo has received and read. The Commission Clerk has placed a copy of your email in Docket No. 20200226-SU, Application for certificate to provide wastewater service in Charlotte County, by Environmental Utilities, LLC. We appreciate you providing the Commission with your comments.

Sincerely,

Angelena McCoy
Executive Assistant to Commissioner Passidomo Florida Public Service Commission
2540 Shumard Oak Blvd.
Tallahassee, Florida 32399

To whom it may concern,

I am vehemently against a private entity providing a main sewer on Little Gasparilla island for the following reasons:

- 1) as far as I know no environmental study has been done to assess if main sewer is even necessary .
- 2) the cost to a homeowner was not finalized and was vague on hook up fees
- 3) the cost quoted would be prohibitive for a lot of islanders
- 4) as we only have small narrow roads the installation would very very disruptive over a very long period .
- 5) EU has no experience installing sewers
- 6) given the point in line 5) the island installation in itself would a major challenge even for an experienced contractor
- 7) who would oversee the installation
- 8) what and who guarantees the long term
- 9) long term maintenance
- 10) are there price controls
- 11) in the event of EU selling to another private entity what protections are in place for pricing and maintenance

If in the future there is a proven need for a main sewer then Charlotte County should do it as they can spread the cost over the entire county tax base . They also have the experience as they currently operate a system in similar conditions as we have on the island . And any dealings I have had with county offices on Murdoch Circle the staff have always been courteous, responsive and helpful.

Please deny EU's application for main sewer on Little Gasparilla Island .

Thank you ,

Harry Bourke
