Subject: RE. Docket #20200226-SU

My name is Gary Galloway and my wife and I own a house and live on Don Pedro Island. I have learned that the Public Service Commission(PSC) is recommending that the Environmental Utilities application for a wastewater certificate be denied.

The PSC and their staff's rigorous and attentive effort is wholeheartedly appreciated. The fact that you listened to the people who live on these islands and gave consideration to our concerns is a big plus in my book. In addition, it says to me that all of our (island folk) efforts to lessen the impact on our environment are not wasted.

I wholeheartedly applaud the decision reached by the PSC to deny the Environment Utilities application for a wastewater certificate. I urge you to follow their recommendation and vote to deny the certificate to Environmental Utilities.

Hello Commissioners,

First of all, it was an honor to meet each of you commissioners in person and to represent our family's interest in the public hearings.

We are homeowners and residents of Little Gasparilla Island, located at 9424 and 9426 Rum Runner Road in Placida, Florida.

We are writing once again to you regarding our plea with you to deny EU's application for a wastewater certificate. We would like to express our thanks and appreciation to both the PSC staff and you commissioners for having devoted your time and consideration to this case.

We love our island environment and cherish and protect its natural beauty.

We are appealing to you because if this certificate is issued, it will negatively impact not only us as a family but all of us as a community. We feel we are being forced into a service we don't need or want, at a price we can't afford.

As the decision rests upon your shoulders, we humbly ask for your mercy in deciding our fate and future.

Respectfully,

The Kroslak Family

Thank you for your attention to the above mentioned motion and for hearing the residents of this island. We may be small but we have a powerful voice when it comes to protecting our homes. Again, please DENY this application.

It is not needed, not necessary nor wanted and not asked for.

Here on the island, our HOA lets us know when the septic pump out service is expected.

This keeps us current on maintaining our tanks, we share in the barge fee and all is well.

Sincerely,

Eileen Pyle
