#### COMPLAINT INFORMATION

Complaint: Other Complaint against Florida Power & Light Company

#### Details:

FPL has imposed a new 'minimum base use' to bills. For solar users that are banking energy it triples our bill. I am sure you are getting a ton of complaints on that. The Commission needs to get on board with Solar. Solar and Batteries are a huge contributor to resiliency in particularly after storms. The governor saved us from FPL and bad legislation, but this seems to have slipped though.

Here is my proposed solution- Keep the minimum base BUT PUT THOSE KW WE ARE PAYING FOR INTO OUR NETMETERING ACCOUNT. This way we can use that power in the hot summer when solar cannot keep up.

I have no problem paying this if it goes into the netmetering bank. If not you are charging for something we are not getting and I will be joining the many others to protest this get word to the governor and get it entirely reversed. Seems he is the only one standing up for Solar in our state government.. Where is this commission?

Thank you

Scott
