Dear Mr. Avendano:

Thank you for your email, dated July 8, 2022, which Commissioner Passidomo has received and read. The Commission Clerk will place a copy of your email in Docket No. 20210015-EI, *Petition for rate increase by Florida Power & Light Company*. We appreciate you providing the Commission with your comments.

Sincerely,

*Angelena McCoy*

**Subject:** We Can't Afford Higher Rates from FPL

Commissioner Gabriella Passidomo,

I am writing as a concerned Florida resident and customer of Florida Power & Light (FPL). I received notification that FPL intends to increase rates for customers like me. I am urging you to rethink this decision and not increase our bills.

This past year has been extremely challenging financially for many people in the state of Florida. A rate increase is the last thing we need, especially for vulnerable folks who may be on a fixed income or struggling to find work.

I urge you to reconsider this rate increase and also for low income people who are struggling with the rent spikes and gas and etc that's coming our way it would be unfair for the American people just being honest to the best of me and you and the our American people it's time for a

change in this world to be living comfortable and not struggling to make ends meats and trying to catch up to the spike of electricity bills amen

Justin Avendano

**Subject:** FPL Minimum base billing charge

We installed solar panels on our home rooftop 5 years ago. We made a big investment, but we have been happy with it as it is good for the environment and good for our monthly bills. Now we see you have approved a \$25 minimum base bill charge that we are sure is aimed at punishing solar panel customers. Your decision again puts Florida behind on what our country and our world is coming to realize and act upon - climate change and the environmental disasters that are coming if we don't wake up and act! You are punishing the wrong entities! if you want to punish someone, punish those who want to keep using carbon-emitting fuel instead of solar and wind.

**To:** Office of Commissioner Passidomo <Commissioner.Passidomo@psc.state.fl.us>  
**Subject:** FPL base bill

Good day Commissioner,

Starting with the June FPL bill they are imposing a minimum base bill of \$25. So anyone who is producing more solar energy then consuming each month, our bill is \$16 higher while not receiving any additional products or services. Since FPL could not get the net metering revoked as a penalty to all solar power generating customers, instead they instituted this \$25 minimum base bill. Basically a \$16/month solar tax, an obvious money grab! That action doesn't support what FPL says about supporting power production by their customers. I invested a large amount of money to generate clean power and do the right thing without thinking we would get slapped in the face with this ridiculous \$25 base bill. So this extra \$16/month equates to \$192/yr which might be reducing my return on investment of the solar panels by maybe 20% (I recently had them installed and operational in 12/21 so don't know yearly output yet).

I submitted a complaint to FPL via your website. They contacted me to basically satisfy that requirement but the rep had the arrogance to say that you basically can say whatever you want but this \$25 base bill will not change! And on top of that they were trying to divert the responsibility to the PSC, saying that you all approved it. Which is true, but seeing that this base bill is not fair to us solar power producers and the large amount of people against this horrid change you all have the power and common sense to revoke this unfair practice!

This similar writeup was printed in the Englewood Sun as a Letter to the Editor on June 17th so other customers would be aware of the underhanded actions by FPL and hopefully institute change.

Thank You  
Alan Rohanna
