Subject: Docket No. 20220001-EI: Reject the new electric rate hikes!

Florida Public Service Commission Clerk,

Docket No. 20220001-EI

I am an electricity customer in Pensacola, Florida. I received notification that you will soon be considering proposals from FPL, Duke, FPUC and Tampa Electric to increase my electricity rates next year.

This is outrageous. These companies have made windfall profits over the last few years. Yet when submitted you have approved their rate increases. No amount is too high, apparently. When will you stand up for your own mission of setting fair rates for consumers in Florida? I and other seniors on fixed income can not keep up with all these increases.

Another electricity rate increase is the last thing we need, especially for vulnerable folks (elderly, handicapped < disabled) on a fixed income or other Floridians struggling to recover

financially from the pandemic and health care costs. We are all inundated with price increases on everything.

I urge you to reject these rate increases.
