Subject: Docket No. 20200181; Put us on a path to lower power bills through energy efficiency

Dear Florida PSC Commissioners,

My power bills are higher than ever. We also absorb higher housing costs and general inflation, and now we face record increases in charges for fuel costs on bills.

This is not sustainable for many Floridians. Please put us on a path to lower bills by adopting an energy efficiency rule that will provide greater access to energy saving programs for all residents in Florida.

You have the power to modernize your rule to discourage outdated practices that depress energy efficiency potential and reward energy waste.

Please adopt an energy efficiency rule that makes Florida a leader in capturing energy savings for families and businesses. It is time to put energy savings to work for Florida's families, businesses, and the state.

cc: Governor DeSantis

Sincerely,
Jacqueline Trudeau
