Dear Commissioner Graham,

I'm a mother who fears for my family in a warming world.

As you likely heard, the Biden Administration recently made a monumental decision to halt approvals for all new LNG projects.

<https://linkprotect.cudasvc.com/url?a=https%3a%2f%2fwww.energy.gov%2farticles%2fdoe-update-public-interest-analysis-enhance-national-security-achieve-clean-energy-goals&c=E,1,mDiLZkZlIwWSD9cMZv3923p7ZUAUZTtAxiHm0wrfRlkHE2P1IV33rZDoJvoKVRA0abSbgS4GhL-Mj0JmNgzdDhNtGoFgleKOMrpfXCvVi96DdYYNtPS&typo=1>

I urge you to follow Biden's lead and stop approving new gas infrastructure in Florida favor of clean, renewable energy.

In recent years, we have made powerful progress on climate and on methane in particular - but the unprecedented gas boom threatened to erase all these gains and more.

Until now.

This is a critical turning point. Biden has taken the first step toward ending the reign of fossil fuels in our energy system. Now, it's time for state leaders like you to take that baton and run with it.

Please help secure our energy future by following the President's lead and halting approvals of new gas infrastructure in Florida.

Thank you!

Sincerely,

Jody berman

Pompano Beach, Florida
