In re: Petition for approval of waiver of CIAC Rule No. 25-6.064, F.A.C. for new line Extensions serving electric vehicle fast charging stations, by Tampa Electric Company

DOCKET NO. 20200011-EI

FILED: February 28, 2024

FOURTH ANNUAL REPORT

Tampa Electric Company ("Tampa Electric" or "company") files this Third Annual Report and says:

1. On April 26, 2020, the Florida Public Service Commission ("Commission") entered an Order in this docket granting Tampa Electric's Petition seeking a variance or waiver of Rule 25-6.064, F.A.C. for new line extensions serving electric vehicle fast charging stations. *See* Order No. PSC-2020-0108-PAA-EI; *see also* Order No. PSC-2020-0136-CO-EI, issued May 8, 2020.

2. The Commission's Order requires Tampa Electric to submit a report by March 1 of each year during the 5-year variance/waiver period. The report must include three categories of information for the preceding calendar year.

3. Tampa Electric submitted its First Annual Report on February 26, 2021, a supplement on March 22, 2021, its Second Annual Report on February 28, 2022, and its Third Annual Report on February 28, 2023. *See* Doc. Nos. 02460-2021; 02992-2021; 01502-2022; 01610-2023.

4. Tampa Electric hereby submits its Fourth Annual Report. Each category of information required by Order No. PSC-2020-0108-PAA-EI, along with Tampa Electric's response, is set out below:

• For each EV fast charger line extension installed during the reporting period, the number of EV fast chargers served, the total line extension cost, the CIAC collected, the total annual revenue collected (demand and energy), the line extension usage metrics (demand and energy), and the balance of any related cross subsidy (total cost less CIAC collected less total energy/demand revenue collected to date).

Tampa Electric has not constructed any primary line extensions to serve direct current fast chargers that utilized the variance during the reporting period. The company has no specific information regarding why there has been no activity under the variance.

• System-wide Totals (summed for all years since the time the temporary rule waiver/variance was granted) for each of the following: EV fast charger line extensions installed, the number of EV fast chargers served, EV fast charger line extension costs, CIAC collected, total annual revenue collected (demand and energy), line extension usage metrics (demand and energy), and the balance of any related cross subsidy (total cost less CIAC collected less total energy/demand revenue collected to date).

None. Please see the response above.

• Projected annual growth for the next five years in TECO's service territory of EVs, EV fast chargers, and EV fast charger line extensions.

Please see the table below setting out Tampa Electric's projections for growth of EVs and EV fast chargers in the company's service territory over the next five years. The company does not currently have a projection of fast charger line extensions.

| Year | Number of Electric Vehicles | Number of EV Fast Chargers |
|------|--------------------------------|-------------------------------|
| 2024 | 47,374 | 159 |
| 2025 | 67,251 | 181 |
| 2026 | 89,559 | 204 |
| 2027 | 114,145 | 230 |
| 2028 | 140,948 | 256 |

5. Tampa Electric will continue to collect the information required for annual reports

in this docket and will provide its next annual report by March 1, 2025.

DATED this 28th day of February 2024.

Respectfully submitted,

Molulm n. Means
