SUBJECT LINE: RE. Docket #20240032-SU

Our personal perspective as concerned homeowners of Little Gasparilla Island and environmental proponents is that the proposed wastewater service will have a devastating impact on the island and islanders. The service proposal has not demonstrated evidence to

be better for the environment or residents/owners. It is, however, beneficial for those who stand to profit from the installation and forced hook up for ongoing service. This is an untenable situation. We can't fathom how the installation of such a system wouldn't create massive upheaval to the landscape, not to mention at a high cost to all owners. There seems to be little to no advantage of this project and it represents a major can-of-worms with potential problems in our minds.

PLEASE deny EU's application for wastewater service.

Thank you!

Robert and Michele Matsuk

Concerned Little Gasparilal Island Residents,
