**Subject:** FPL Rate Increase

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

Just read about the FPL rate increase request.

If you have a scintilla of fortitude, tell them not only NO---But HELL NO!!!

If you are just a marshmallow, then roll over as you usually do. These people are nothing but crooks who have managed to pull over a big heist so far. I just read where the average household electric bill in Kentucky is \$157 per family per month. I am curious about the average household electric bill in Florida. Mine is a multiple of that and I'm sure yours is to. You are supposed to represent the citizens of Florida, not boot lick the arrogant.

In this situation where the consumer has no choice in utility service, they tout what percent of cost is taken as profit. Then in the name of Public Relations, they run up cost by donating millions to their favorite cause. They buy advertising touting what nice guys they are. They even did a Super Bowl ad—boy did we need that. All the time, they are simply running up cost so the percent of cost--- their-profit—is higher. They might fool some—but surely not all.

Please look at the WEAR ABC 3 news, Pensacola Facebook page for other public opinions.

Do I ever miss Gulf Coast Power!!!!
