2540 Shumard Oak Boulevard
Tallahassee, FL 32399-0850

Re: Docket No.20250011 -EI

Petition by Florida Power & Light Company for Base Rate Increase

I am writing to formally request that The Commission hold in-district hearings regarding Docket No. 20250011 (Petition for Rate Increase by Florida Power & Light Company) to ensure that the public has a fair opportunity to weigh in on this critical decision.

Some FPL customers have already seen their bills increase by 60% in the last five years, and now the company is asking to increase rates by almost \$9 billion over the next five years, all while Floridians struggle to afford basic necessities. FPL is ranked 52 out of 53 by the American Council for an Energy Efficient Economy of utilities nationwide in terms of helping customers reduce power bills with efficiency and conservation programs. Approving this rate hike would only reward corporate greed at the expense of millions of hard-working Floridians.

I urge you to reject this request to ensure that consumers, not corporate profits, remain your priority. Holding in-district hearings will allow impacted residents to voice their concerns and hold FPL accountable. I appreciate your attention to this matter and look forward to your response.

Sincerely,
Mrs. Nerea Arce Masnú

Re: Docket No.20250011 -EI

Petition by Florida Power & Light Company for Base Rate Increase

I am writing to demand that the Commission hold in-district hearings regarding Docket No. 20250011 (Petition for Rate Increase by Florida Power & Light Company). The public deserves a clear and fair opportunity to weigh in on this monumental decision.

FPL has already raised rates significantly, with some bills increasing by 60% in just five years. Now, they are requesting nearly \$9 billion more over the next five years. This is an unreasonable ask at a time when Floridians are struggling with the basics.

Moreover, FPL is ranked 52nd out of 53 utilities nationwide for its efforts in efficiency and conservation. The company is doing little to help consumers save, yet it continues to profit at our expense. Approving this hike would reward corporate greed while burdening everyday Floridians even further.

I strongly urge you to reject this request and ensure the voices of your constituents are heard. Holding in-district hearings is essential for accountability.

Sincerely,
Mr Dane Williams
5334 Florence Point Dr Fernandina Beach, FL 32034-5408 jcahaba@gmail.com

FPL is ranked 52 out of 53 by the American Council for an Energy Efficient Economy of utilities nationwide in terms of helping customers reduce power bills with efficiency and conservation programs. Approving this rate hike would only reward corporate greed at the expense of millions of hard-working Floridians.

I urge you to reject this request to ensure that consumers, not corporate profits, remain your priority. Holding in-district hearings will allow impacted residents to voice their concerns and hold FPL accountable. I appreciate your attention to this matter and look forward to your response.

Sincerely,
Miss Danielle Whiting
