Subject: Protesting the application for water Doc# 20240011

CAUTION: This email originated from outside your organization. Exercise caution when opening attachments or clicking links, especially from unknown senders.

As a resident living on County Road 13 we are vehemently protesting this application for water. The proposed location for the water treatment facility is immediately adjacent to the Deep Creek Conservation area and drains south and west directly into the Conservation Area and the St. Johns River. This entire area, including all land at least 5 miles east of the St. Johns River, is an extremely sensitive portion of the St. Johns River flood plain.

Any application for a facility such as that proposed in Doc 20240011 should most certainly NOT be considered or approved.
